Washington, September 5.-A reply has been received at the mayy department from Captain Forsyth to the letter calling his partment to Captain Fersyth, it appears dld not reach bim.

The following statement of the character of the reply was made:

Captain Forsyth while conting East was felayed over Sunday at Kansas City, Mo. He decimed to talk with a reporter, It seems, however, that he fell into private conversation with some person in the be repeated in any form. His remarks were distorted and were used to form the substance of the alleged interview.

Captain Forsyth has made such disclaimer and has so frankly avoved his deep toret at any indiscretion in the premises iat the department is satisfied there was o intent on his part of cloisting the order of the department to refrain from

FORTY THOUSAND MEN NEEDED

For an Indefinite Length of Time in the Philippine Islands.

Washington, September 5.- The war department has decided to bring the wenty-third infantry, now in the Pathippines, home on the transport Buford, which sails for New York via Sues on the 15th instant. The Kilpatrick, which sails the same day for San Francisco, will bring the Eighteenth infantry. On or next trip in December the Klipatrick will bring home the nine batteries of heavy coast artifery. When these commands reach the United States there will be left in the Philippines 43,000 officers and men, and the present plans do not contemplate a further reduction of that force,

Both General MacArthur and General Chaffee have expressed the opinion that about 40,000 men will be required in the Philippines for an indefinite period.

published utterances of the Venezuelan govenment on the subject of the differences with Colombia discloses the fact that it is not, as was at first reported, an identical note addressed to the powers through their resident representatives at Caracas. Insread it appears to be something in the nature of a proclamation addressed to the world at large and signed by Minister Blanco, in charge of foreign affairs. This fact makes it impossible for any of the C governments of the world to make response to the note which may have been an ob ject with the Venezuelan government. It may, however, be noted that our own goverument took prompt steps to disclose the position of the United States in the utterance of August 24, sent both to Caracas and to Begota in the shape of an instruc-tion to our ministers at those points, and our note was dated nine days later taun the Versianles appropriation.

Washington, September 5 -- At the Columbian legation the arrival of 1090 Colombian troops at Borrauquilla is regarded as a move to strongly fortify the istimus and prevent the disorded which has prevailed here. Up to this time the government has directed its attention to the disturbances in the interior and only a few troops wern sent to the isthmus, fifty men being considered sufficient to garrison Bocus del Loro. Now, however, the reports of trouble around Bocus del Toro have shown the next strong force along the isthmus and troops are being sent south to Barranguilla. From this point they are within onsy water communication with the isthmus and the Colombian war beat ignoral Pinzon is in that identity prepared to take forward large reinforcements.

The outbreak at Bocus del Toro shows the wide extent of the disturbance, that point being at the extreme west of the isthmus, adiching Cesta files, and a part of Costa Rica until the recent award of President Leubet of France gave Bocus del Poro to Colombia. directed its attention to the disturbances oner is not going home, but will finish the task assigned him here.
